M: Let's talk about the newsletter.

W: OK, let's check what we've got so far. We've decided to have one main story and one short story, right?

M: Right. And what about pictures? Should we have one for each story?

W: I'm not so sure about that. Maybe it would be too much. How about just for the main story?

M: That sounds good. Now, what will our stories be? We could do one about the students who visited from Hawaii. Maybe we could use one of the photos they sent us.

Questions No. 17 to 19

M: What are you reading?

W: A report on how Americans identify their ethnic backgrounds.

M: That's interesting. You know, my favorite actor's mother is Irish, and his father's from Nigeria. Are all Americans aware of their roots?

W: Hmm. According to this, quite a few describe their ancestry simply as American, about 7%, and African-Americans make up about 9% of the population.

M: So, what's your ethnic background?

W: Well, I'm Italian and Polish. Italian ranks 7th and Polish, 8th.

M: What background is the most common? English?

W: No, although it's more common than people who call themselves American, it's not even in the top three.

M: Many Irish immigrants came here because of the famine in the 1800s, right?

W: Yes. Nearly 11% say they have Irish roots—pretty high, but it's not the highest. More people in America claim German ancestry than any other.

M: Now I understand how complex American society is.

Question No. 20

Moving to a new home with your pet can be difficult. Cats are very sensitive animals, and moving is quite an upsetting experience for them. When you arrive at your new home, it may be a good idea to put your cat in a quiet room, if possible. Leave him in peace with his old bed, his litter box, and some food until everything calms down. After that, let him come out and join you only if he wants to. He should also stay indoors until he becomes familiar with his new home and environment.

Question No. 21

Welcome to Greenland, the largest island in the world. You are now in Nuuk, the capital city located on the southwestern coast where there are small airports, hotels, and villages. In contrast, along the eastern coast, which is the least accessible area, we can see some of the finest, breathtaking Arctic scenery. Travelers to the eastern shore always describe the view as spectacular and magnificent. However, the trip is only possible for a few weeks a year when the frozen ocean melts enough to allow expedition ships through.

Question No. 22

Questions No. 23 to 25

Nursery rhymes are simple poems which exist in many cultures. Through these poems, children have fun singing, playing games, and learning basic language and counting skills. What is remarkable about these poems is that they are often passed down orally from one generation to another in the home.

Among nursery rhymes, Mother Goose rhymes may be the best known. But, was there really a person named Mother Goose? We are not sure. There are several interesting theories about the origin of Mother Goose. Some scholars suggest that it was the French author, Charles Perrault, who said in the 1600s that the poems were told by an old woman who kept geese. Others say that the English author, John Newbury, first used the name in a book he published in 1765. Still others insist that Mother Goose was Elizabeth Goose, who lived in Boston in the 18th century and entertained her grandchildren by singing nursery rhymes.

Regardless of how the term originated, Mother Goose rhymes are the most familiar children's poems and are enjoyed worldwide. Teachers of English often use them to introduce the natural sounds and rhythms of the language in a fun way. Today, many works of literature, popular songs, and movies also make reference to Mother Goose rhymes.
