国際連合ホームページより引用

There are a lot of problems on the earth. Some of them are very big and serious. World leaders decided to set 17 goals in 2015 and we should realize these goals before 2030. We must think about what we can do to solve the problems. We also need to work together. What can we do to make the world better?

No. 2 ZERO HUNGER (飢餓をゼロに)

There are many people who are suffering from hunger around the world. You cannot keep healthy (①) enough food. Some people die because they don't have enough food. This problem is especially serious for babies and children.

Have you ever heard of 'food loss and waste'? It is the food which is thrown away though it can still be eaten. Many people don't have enough food, but a lot of food is thrown away.

No. 3 GOOD HEALTH AND WELL-BEING (すべての人に健康と福祉を)

In some countries, there are many children who die under five years old. They cannot take medicine when they are sick. One of the reasons is money. Their families don't have enough money to get medicine. It is important for them to learn how to keep children healthy, too.

On the other hand, more people [②] and there are more old people in some countries. In such countries, they will need hospitals or people to take care of them.

You have many chances to do something for the SDGs in your life. Thinking about your life will lead to realizing these goals. Think about people who cannot get clean water. You can save water when you wash your hands.

It is also important to talk about these problems with your family and your friends. Then we can work together to find the solutions. Let's think about what we can do to realize the SDGs.

(注) serious:深刻な leader(s):指導者 set goal(s):目標を立てる realize:実現する

solve:解決する healthy:健康な on the other hand:一方で lead to:~につながる

【優子さんの意見】

I will talk about No. 13, CLIMATE ACTION (気候変動に具体的な対策を).

We have more and more natural disasters in the world. It is said that one of the reasons is global warming. The earth is getting warmer. We need to do something to stop it. We should take care of the earth. I think we can do something to stop global warming. For example, [③].

We can only do small things, but we should keep doing them. Then our lives will be better.

(注) natural disaster(s): 自然災害 global warming: 地球温暖化

【佐藤先生のコメント】

SDGs are the goals to [4]. There are many problems both in foreign countries and in Japan.

Around the world, a lot of people are sick and some of them cannot go to a hospital. To solve this problem, we have to think about how we can keep people healthy. This is goal No. 3. People need to have enough food to keep healthy. This is goal No. 2. Building hospitals is another solution. There is not only one answer. We need to remember all 17 goals to solve the world's problems and think about our future.
